

Q.1	First of all, now that the Primary Election is over, what's your opinion of the overall results -- would you say you're <u>very happy</u> with the way things turned out, you're <u>mostly happy</u> , you're <u>mostly unhappy</u> , or <u>very unhappy</u> with the results of the Primary Election?	Very happy 8% Mostly happy 46% Mostly unhappy 20% Very unhappy 16% Unsure 10%
-----	--	--

◆◆	And what's your opinion of some of the candidates that ran in the Primary Election -- for example, overall do you have a favorable or unfavorable opinion of _____? ...and is that very (favorable/unfavorable) or somewhat (favorable/unfavorable)? ...What about _____?							
	<table border="0"> <tr> <td></td> <td style="text-align: center;">Very Favorable</td> <td style="text-align: center;">Somewhat Favorable</td> <td style="text-align: center;">Somewhat Unfavorable</td> <td style="text-align: center;">Very Unfavorable</td> <td style="text-align: center;">Neutral/Unsure</td> </tr> </table>		Very Favorable	Somewhat Favorable	Somewhat Unfavorable	Very Unfavorable	Neutral/Unsure	
	Very Favorable	Somewhat Favorable	Somewhat Unfavorable	Very Unfavorable	Neutral/Unsure			
Q.2	Joe Miller.....	18% 23% 18% 32% 9%						
Q.3	Lisa Murkowski	24% 40% 27% 8% 1%						
Q.4	Scott McAdams.....	4% 20% 13% 2% 62%						

Q.5	At the present time, Scott McAdams is the Democratic candidate for U.S. Senate, while Joe Miller is leading Lisa Murkowski in the Republican Primary. Some people have suggested that if Joe Miller ends up winning the Republican Primary, that Lisa Murkowski should run in the General Election as a Libertarian. This would mean that voters in the General Election could choose between Scott McAdams, Joe Miller or Lisa Murkowski. If that were the choice, who would you vote for...? *	<table border="0"> <tr> <td style="font-size: 2em;">}</td> <td>Scott McAdams</td> <td style="text-align: right;">19%</td> </tr> <tr> <td></td> <td>Joe Miller</td> <td style="text-align: right;">31%</td> </tr> <tr> <td></td> <td>Lisa Murkowski</td> <td style="text-align: right;">37%</td> </tr> <tr> <td></td> <td>Unsure</td> <td style="text-align: right;">13%</td> </tr> </table>	}	Scott McAdams	19%		Joe Miller	31%		Lisa Murkowski	37%		Unsure	13%
}	Scott McAdams	19%												
	Joe Miller	31%												
	Lisa Murkowski	37%												
	Unsure	13%												

Q.6	And how strongly do you feel about that -- would you vote for them <u>for sure no matter what</u> ; would you <u>almost certainly</u> vote for them; or is there a chance you might switch to one of the other two if your first choice didn't seem to have a chance?	For sure, no matter what 50% Almost certainly 31% Might switch 19%
	McAdams voters: 41% "For sure"; 36% "Almost certainly"; 22% "Might switch" Miller voters: 62% "For sure"; 25% "Almost certainly"; 13% "Might switch" Murkowski voters: 45% "For sure"; 32% "Almost certainly"; 23% "Might switch"	

* Note: Q.5 wording was updated to reflect the Libertarian Party announcement that Murkowski would not be allowed to run as a Libertarian and the Murkowski concession of the Republican Primary. Final verbiage:

"At the present time, Scott McAdams is the Democratic candidate for U.S. Senate, while Joe Miller is the Republican candidate since Lisa Murkowski conceded the Primary election. Some people have suggested that Lisa Murkowski should run in the General Election as a third party candidate or write-in candidate. This would mean that voters in the General Election could choose between..."
